General advice:	In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt, seek medical advice.
If inhaled:	If inhaled, remove to fresh air. Get medical attention if symptoms occur.
In case of skin contact:	Wash with water and soap. Get medical attention if symptoms occur.
In case of eye contact:	If in eyes, rinse well with water. Get medical attention if irritation develops and persists.
If swallowed:	If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water.
Most important symptoms and effects, both acute and delayed:	None known
Protection of first-aiders:	No special precautions are necessary for first aid responders.,

Special protective equipment for fire-	Wear self-contained breathing apparatus for firefighting if
fighters:	necessary.
	Use personal protective equipment.

### **SECTION 6. ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures:	Follow safe handling advice and personal protective equipment recommendations.
Environmental precautions:	Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up:	Soak up with inert absorbent material. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Section 13 and 15 of this SDS provide information regarding certain local or national requirements.

### **SECTION 7. HANDLING AND STORAGE**

Technical measures:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section	
Local/Total ventilation:	Use only with adequate ventilation.	
Advice on safe handling:	Handle in accordance with good industrial hygiene and safety practice.  Take care to prevent spills, waste and minimize release to the environment.	
Conditions for safe storage:	Keep in properly labeled containers. Store in accordance with the particular national regulations.	
Materials to avoid:	Do not store with the following product types: Strong oxidizing agents

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Ingredients with workplace control parameters

Ingredients	CAS-No.	Value type (Form of exposure)	Control parameters/ Permissible concentration	Basis
Lithium Stearate	4485-12-5	TWA	10 mg/m3	ACGIH

Engineering measures:	Processing may form hazardous compounds (see section10).  Ensure adequate ventilation, especially in confined areas.
	Minimize workplace exposure concentrations.
Personal protective equipment	
Respiratory protection:	General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits.  Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be work. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.
Hand protection Material:	
Remarks:	Wash hands before breaks and at the end of workday.
Eye protection:	Wear the following personal protective equipment: Safety goggles/glasses
Skin and body protection:	Skin should be washed after contact.
Hygiene measures:	Ensure that eye flushing systems and safety showers are located closed to the working place. When using, do not eat, drink or smoke. Wash contaminated clothing before re-use. These precautions are for room temperature handling. Use at elevated temperature or aerosol/spray applications may require added precautions.
